

## Hand Out #5

### STUDENT PRE-EVENT GUIDE & ACTIVITIES:

**There will be a variety of “Hands on Careers” activities where you and 3 or 4 of your classmates will experience a trade or workplace skill with a skilled worker for a short time.**

You have been given a hand out that lists the Hands on sessions at your event.

If you want to review the sessions after this class is over, go to:

[www.kcdc.ca/careerfairs](http://www.kcdc.ca/careerfairs)

Check back often as there may be a few additions and changes right up to the day before.

To get an idea about what the sessions might look like for a certain skill activity, go to the videos for the 2008 Skills Canada competitions at:

<https://www.youtube.com/user/KCDCWeb> . The videos are not what you will do that day, but they will help.

There will also be Career Booths at the Career Fair. You have been given a hand out that lists these booths. The Career Fair web site also provides their website links. The knowledgeable people there will provide you with information on a large variety of careers and educational opportunities.

The idea is that the Hands on Activities will give you a chance to experience activities of various careers, while the career booths give you a chance to find out where the careers are and how you get into them.

This is your chance to explore and learn as much as you want about some of your career interests. How do you do that?

Before the event, prepare yourself for a quality career search experience.

**Instructions:**

**First**, using the list from the Career Fairs website and resources such as the 2008 Skills Canada videos, answer the following question about the Hands on Career activities you will be attending:

**Which 2 activities interest you the most and why?**

---

---

---

**Second**, using the list of Career Booths provided, answer the following question:

**Which 2 Career Booths interest you the most and why?**

---

---

---

**Third**, in a notebook, list 3 questions you will ask at the Career Booths. When you go to the Career Fair, ask these questions, and note the answers.

---

---

---

**Thank you (Tiniki) for your time in completing!  
We hope you found a career that interest you! 😊**
