

NUNA CONTRACTING LTD.

PBN–Nuna Contracting Ltd.

“Working in Partnership.....”

*Heavy civil, mining and construction service provider
supporting Saskatchewan's mining sector*

October 22, 2014

Walter Smith, Manager Labour Services

Company History

- ▶ **November, 2007:** Initial discussions began
- ▶ **July, 2008:** Formed a business relationship and signed a project specific JV agreement
- ▶ **February, 2011:** Amended JV to include broader geographic area. Goal was to work towards a stand-alone corporation
- ▶ **March, 2011:** Established/formalized PBN–Nuna Contracting Ltd. as a Corporation
- ▶ **April, 2011:** Certificate of Registration under Corporation Act of Saskatchewan
- ▶ **May, 2012:** Award of West Wall Stabilization Project, Cameco Key Lake Operations– April 2012

Company History

- ▶ **November, 2013:** Completed the West Wall Stabilization
- ▶ **May, 2014:** Awarded Lorado Mill Remediation Project
- ▶ **June, 2014:** Discussion on a Shared Management process for larger projects

Scope of Services

- ▶ To submit joint bids or proposals in the geographic area of the Northern Administration District (NAD) for contracts/project relating to:
 - Mining;
 - Mining exploration and early works;
 - Heavy civil earthworks;
 - Construction site services;
 - Life of mine service and maintenance contracts.
- ▶ This agreement does not inhibit PBN from bidding specific scopes of work solely within PBN's capacity

West Wall Stabilization Project – Cameco

- ▶ PBN–Nuna tendered and was the successful bidder on Cameco’s “West Wall Stabilization” contract at the Key Lake operation; a project that is part of a larger “Key Lake Revitalization” program.
- ▶ Major scope of work includes:
 - Clearing and grubbing
 - Excavate, load, haul, place and level 2.4 million m³ of sand
 - Scalp/screen and load/haul/place 316,000 m³ of rock–fill
 - Haul road construction and upgrading
 - Haul road ditching and check dam construction

Project Highlights

- ▶ Operating safely. Achieved 60,000 person hours, and the excavation of 2.2M cu. m of sand, with 0 LTI and 2 FA
- ▶ Exceeding demographic expectations:
 - Achieved an RSN engagement of 48%
 - Of this, achieved Pinehouse resident engagement of 31% of total RSN
- ▶ Currently exceeding Client project milestones

Lorado Mill Remediation Project – SRC

- ▶ PBN–Nuna tendered and was the successful bidder on Cameco’s “Lorado Project” contract near the Uranium City; a project that is part of a larger “Project Cleans” program lead by SRC.
- ▶ Major scope of work includes:
 - Clearing and grubbing
 - Excavate, load, haul, place and sand
 - Scalp/screen and load/haul/place rock–fill

Benefits and Initiatives

- ▶ Initiated a heavy equipment training program for the youth of Pinehouse with great success
 - Beginning in September, 2012, every 2 weeks, 2 trainees would attend site and participate in a training program developed with the assistance of Nuna Training Technologies and Cameco
 - Up-scaling of employee skill sets
- ▶ Access to equipment leasing options...
 - Take advantage of rental purchase buy-out options for future PBN Nuna opportunities
 - PBN access to PBN Nuna opportunities
- ▶ Revenue earned from PBN Nuna projects will enable PBN to achieve strategic corporate objectives

Going Forward....

- ▶ Continue building capacity
- ▶ Well positioned to take on the next successful project in the region for various clients
- ▶ Provide well trained certified workforce

Thank You
